

CARLOS AUGUSTO

Data & AI Specialist

DATA ENGINEERING | BI | DATA SCIENCE | AI ENGINEERING

PROFESSIONAL SUMMARY

Data and AI Specialist with 6+ years of experience connecting Data Engineering, BI & Analytics, Data Science and AI Engineering. Works across the full lifecycle, from ingestion and modeling to KPIs, forecasting, automation, LLMs, RAG and agents. Translates business challenges into reliable decision systems with executive communication and a strong outcome focus.

EDUCATION

Estácio de Sá

Bachelor's Degree in Information Systems | 2020 - 2023

DIO

Postgraduate Lato Sensu MBA | Completed in 2026

LANGUAGES

- Portuguese - Native
- English - Advanced
- Spanish - Advanced

AREAS OF EXPERTISE

- Data Engineering and ETL/ELT pipelines
- Power BI, DAX, KPIs and storytelling
- Statistics, forecasting and machine learning
- LLMs, RAG, agents and AI automation

PROFESSIONAL EXPERIENCE

Full Business Intelligence Analyst

NEOOH | Feb 2025 - Present

- Builds semantic models, dashboards and financial analytics using Power BI, DAX, statistics and machine learning for budgeting, cash flow, profitability and forecasting.
- Integrates finance, accounting, audit, sales and operations data, turning requirements into governed and traceable KPIs.
- Develops AI automations and chatbots for sales and internal teams, connecting data, workflows and executive communication.

Mid-level Data Analyst

Alvorada Ambiental | Sep 2023 - Feb 2025

- Led descriptive, diagnostic and predictive analyses in Python, R, SQL and DAX across multiple business areas.
- Delivered API-connected Power BI and Google Cloud/AWS pipelines, automating refreshes and optimizing queries.
- Applied generative AI, RAG and automation to organize knowledge, accelerate queries and support decisions.

Software Analyst

RapidoNet Sistemas e Automação | Jan 2023 - Sep 2023

- Automated SQL Server data flows and embedded analytical solutions into operational systems.
- Applied statistical methods and custom reports to improve efficiency, forecasting and processes.

Junior Data Analyst

123milhas | Feb 2022 - Dec 2022

- Built Power BI and SQL pipelines, reducing analysis time by 30%.
- Created executive dashboards and continuous KPI monitoring for senior management.

IT Systems Technician

123milhas | Mar 2021 - Feb 2022

- Automated JavaScript workflows, increasing operational efficiency by 25%.
- Developed DAX and Power BI reports and integrated infrastructure with internal systems.

IT Intern

Premium Saúde | May 2019 - Mar 2021

- Created Node.js scripts and advanced SQL Server reports to support operations.
- Worked across functions on solutions that improved internal process efficiency.

SELECTED CERTIFICATIONS

Google Data Analytics Professional Certificate

Google | 2023 | Six-month professional program

Data Analysis Using Python

IBM | 2024 | 70 hours

Machine Learning - Dimensionality Reduction

IBM | 2024 | 60 hours

Microsoft Power BI for Business Intelligence and Data Science

Data Science Academy | 2023 | 72 hours

Python for Data Analysis and Data Science

Data Science Academy | 2023 | 72 hours

Data Science with Python

DIO / Potência Tech powered by iFood | 2023 | 80 hours

Data Analysis with R Programming

Google | 2023 | 37 hours

Artificial Intelligence Fundamentals

Data Science Academy | 2023 | 12 hours

SQL

Softblue | 2022 | 20 hours

Statistics

Brazilian Ministry of Education | 2023 | 30 hours

JavaScript Developer

DIO | 2023 | 40 hours

Programming Logic

Softblue | 2022 | 20 hours

Java

Softblue | 2023 | 60 hours

DELIVERY APPROACH

- Requirements discovery with cross-functional teams.
- Architecture aligned with quality, cost, latency and risk.
- Implementation, testing, observability and documentation.
- Clear communication for executives and stakeholders.

PORTFOLIO

Case studies spanning financial BI, pipelines, forecasting, RAG, AI agents and automations integrated with business channels.

carlos1818augusto.github.io/carlos-augusto-data-ai-portfolio

TECHNICAL STACK

DATA AND PROGRAMMING

Python, SQL, R, DAX, JavaScript, Node.js, APIs, relational and non-relational databases.

BI AND ANALYTICS

Power BI, semantic modeling, KPIs, financial analytics, visualization and executive storytelling.

AI AND DATA SCIENCE

Statistics, machine learning, LLMs, RAG, agents, evaluation, guardrails and intelligent automation.

PLATFORMS

Google Cloud, AWS, Azure, SQL Server, Supabase, n8n, Looker Studio and WhatsApp integrations.

SELECTED PROJECTS

- **Integrated financial intelligence:** Power BI, DAX, statistics and ML for budgets, cash flow, profitability and outcome forecasting.
- **WhatsApp AI agent:** LLM chatbot with n8n automation, triage, scheduling, human handoff and monitoring dashboard.
- **Governed RAG:** Knowledge retrieval with context, metadata, evaluation, access controls and traceable answers.
- **Executive data pipeline:** ETL/ELT, APIs, SQL and cloud converging into reliable KPIs and automated refreshes.

MEASURED IMPACT

40%

less manual updating

30%

less analysis time

25%

efficiency improvement

20%

higher forecast accuracy

PROFESSIONAL VALUE

One profile to lead the complete data journey: capture, organize, analyze, predict and automate. The tool changes with the problem; delivery remains focused on decisions, performance and measurable KPIs.
